

RANCES S. CUIZON

Motivated undergraduate Computer Science student with experience in web and mobile app development. Skilled in front-end and full-stack development, UI/UX design, and problem-solving. Eager to learn and apply my skills to contribute to innovative and impactful projects

Relevant Experience

Freelance Academic Support, 2021-2022

- Provided academic support to students by answering activities and solving problems across multiple subjects via social media platforms. (*Telegram and X*)
- Created PowerPoint presentations, Posters, and Reviewers (transes) based on client requests.

Selected Projects

Mobile App for Inventory Management, Gochisou Bimi

- Designed and developed a mobile application for Gochisou Bimi to efficiently manage and track inventory using a smartphone.
- Collaborated with group members on this project for Advanced Database Management, where I led the team as the project manager.
- Dart, Flutter, Javascript, Node.js, MongoDB

Fighero – E-commerce Platform for Collectibles

- Developed Fighero, a full-featured e-commerce platform tailored for collectors and enthusiasts of action figures and collectibles.
- Implemented secure Stripe checkout, Clerk auth, wishlist functionality, order tracking, and dynamic product filtering.
- Built an interactive admin dashboard using GROQ queries for real-time content management.
- Typescript, React, Next.js, Tailwind CSS, Clerk, Sanity, Stripe
- [Live Demo](#)

TalkTorial – AI-Powered Learning Platform

- A SaaS learning platform powered by AI that delivers real-time voice lessons. Built using Next.js, Supabase, Clerk, and Vapi, it provides an interactive and engaging way to learn through voice-based AI tutoring.
- Typescript, React, Next.js, Tailwind, Supabase, Clerk, Vapi
- [Live Demo](#)

Enrollment System - DCS, CvSU - Bacoar Campus

- Collaborated with group members to develop a web-based enrollment system for the Department of Computer Studies at CvSU - Bacoar Campus.
- Laravel, PHP, MySQL, JavaScript, TailwindCSS
